Fundraising

Sadly this has become a large part of high school sports. We pay nearly half our coaches' salaries out of the booster account. With the decreasing budget each year, we have purchased equipment, jerseys, practice apparel, off-season apparel, coaching clinic admission, footballs, All Star Game sponsorship, meals for activities with the team, and many other items that come up throughout the season. After last season we had to order 63 new helmets that were no longer safe due to new concussion prevention.

We are trying to keep the fundraising that your sons have to do to a minimum. We spent a lot of time in the off-season finding the best option's that would minimize their role in this process.

We have created some valuable sponsorship opportunities for local businesses through our website, game program, and score board. We have a few different bundles you can find on our website if you or someone you know is looking to sponsor.

On **July 20th at Heritage Links Golf Course** we will have our 2nd annual Panther Golf Scramble. This year the cost is $100 per player and includes 18 holes, dinner, and some fun games and competitions on the course. We have sponsorship opportunities for the tournament as well.

We have chosen to do our panther discount card along side the coffee sales this year. On July 26th all of our football players will flood the city with our discount card and coffee information in hopes of another successful blitz night. This fundraiser has been a major part of our programs income. Please make sure your son can be there that night to participate.

Become a booster. For $50 you will receive a window cling, a game program, your discount card, and your name in the program as a booster.
